Literably digital assessments are formative reading assessments which provide information on student reading performance. *Literably* is a classroom tool that helps elementary and middle school teachers monitor students' progress in reading. The assessment will serve as a screening tool to identify students' reading levels.

Literably digitally scores oral reading assessments with a comprehension check, allowing teachers to spend less time assessing and more time teaching. Teachers in grades K-8 will use the results of the assessments to provide intervention and enrichment during small group instruction.

RESOLVED, that the Plainfield Board of Education approves *Literably* digital reading assessments for all PPS 3rd – 8th grade students – the availability of funds for this item has been verified and will be charged to account 11-000-218000-390A-26-0000 (Testing Contracted Services).
