- *minimizing* the use of paper
- properly recycling waste paper
- using notebook computers rather than desktop computers, when possible

The registration and certification will support the efforts to implement projects that address aspects of sustainability that will support teachers choosing to go green using technology at Woodland Elementary School and preparing the virtual students to be more technology-dependent.

Integration of technology in every classroom at Woodland School will be used to reach diversity in students' learning styles; the use of mobile technology has to be readily available in the classrooms where resources can be conserved when powering down equipment. Students will be able to access the most up-to-date information quicker and easier than ever before using wireless notebooks; Sustainable Jersey for Schools will support teaching staff to support students with becoming more responsible and take more control over their own learning.
