To actively engage families and communities in meaningful structured and productive manner that promotes learning and cooperation.

The Interim Superintendent of Schools recommends, and I so move, the following:

RESOLUTION

The Plainfield Board of Education recognizes that a highly qualified, competent, skilled, and dedicated workforce is essential to the success of the District and the students. Therefore, it has provided the Superintendent of Schools the authority to employ staff members to perform additional assignments within our District.

Pursuant to the Federal No Child Left Behind (NCLB) Act of 2001, public schools in the state of New Jersey are required to annually assess the English language proficiency of their English Language Learners (ELLs) in kindergarten through grade 12 using a standards-based instrument that is common throughout the state. In response to this mandate, the New Jersey State Department of Education adopted ACCESS for ELL's the developed by the WIDA Consortium.

ACCESS for ELLs data must be analyzed in order to properly place bilingual students in September 2010. Responsibilities include: separation of ACCESS test reports by school and grade; preparation of school student rosters, teacher reports and parent reports; reproduction of school reports and placement into binders for each school. Data will be shared with Bilingual Staff as well as Administrators.

RESOLVED, the Plainfield Board of Education approves payment of stipend for August to Ilene Weinstein, ESL District Resource Teacher, at a rate of \$35.00 per hour for the 2010-2011 school year, not to exceed 20 hours, and Idelisse Gonzalez, Bilingual Resource Teacher, not to exceed 20 hours. RESOLUTION

District administrators and staff are in need of continuous training on the use of the district adopted evaluation model. The Charlotte Danielson evaluation program offers an online series for professional development. The workshops and video components are designed to help educate administrators and staff with an in-depth look at each component, and then explores why each one is important and how they work together to define “good teaching.” Using an array of examples, Danielson also examines the challenges teachers face in achieving a “distinguished” level for each component.

This program is a unique and unprecedented resource for teachers and administrators who want to see what the Danielson components look like in action in real classrooms. Packed with 106 real classroom examples; this program features powerful observations from various grade levels and subjects. During the classroom observations, users have the opportunity to listen as Danielson critiques the instructional strategies shown in each video - then explain how they relate to components of the Framework.

This program provides school administrators with an innovative way to improve their skills. Ms. Danielson examines the critical aspects of teacher evaluation, and then challenges administrators to practice by observing video of real teachers in the classroom. This comprehensive mix of theory and practice provides administrators with the perfect tool to confidently evaluate teachers – then provide meaningful feedback to improve teacher practice.
