“Relational Interactions in the Mathematics Classroom: Understanding Mechanisms that Influence Achievement for African-American and Latino Students” is a collaborative effort between Evergreen Elementary School and Rutgers University. The goal of this project is to understand mechanisms that impact the mathematics achievement of Latino and African-American students.

Evergreen Elementary School's core expectation is to have every student attend college. To obtain this vision we continually work on the “Three R’s: Rigor, Relevance and Relationships.” Therefore, this project of understanding teacher relationships is of the utmost importance to our school community. We see this partnership as furthering our understanding of how to better respect, serve, and build relationships with students as well as improve mathematics instruction so our students can achieve their full potential.

In addition, as a school community we have students and staff members evaluate their ability to uphold these values and identify ways that they can improve and grow through data driven analysis. This represents our dedication to reflect on and learn how to support student learning better. The grant provides an exciting opportunity for us to continue our efforts to use data in improving instruction. Using mCLASS® to analyze student performance further supports this work. Having the project collect data on students’ mathematical thinking and providing it to teachers throughout the year will give teachers an important tool to rethink and adapt instruction to meet the mathematical needs of students.

Finally, the project will provide parent workshops for the community. Mathematics in particular is an area that parents have difficulty knowing how to support students. These workshops will connect the school and home practices so that parents can be involved in the mathematical development of their children. Both the Evergreen Elementary School and Rutgers University are excited to have the opportunity to partner and collaborate on this grant as we see it as critical in understanding how we can better serve our students and in improving the mathematics instruction.

RESOLVED, that the Plainfield Board of Education approves the acceptance of a partnership between Evergreen Elementary School and Rutgers University.

Goal 1: Learning Outcomes:

To improve the learning and academic performance of all students in PPS

The Superintendent of Schools recommends, and I so move, adoption of the following:

RESOLUTION

The Plainfield Board of Education is committed to ensuring all students succeed academically and reach their full potential in life. In doing so, it is also committed to providing opportunities for and ensuring that all students meet the New Jersey Core Curriculum Content Standards and achieve academic and life-long success.

The Office of Educational Services has reviewed STAM Interactive Educational Software. STAM is based in Princeton, New Jersey, and is a leading provider of learning solutions with over twelve (12) years of experience. STAM is now distributing the 'globally proven' Eureka in educational software in the USA for the first time. The software will support teachers in teaching science concepts to students in Plainfield's middle and high schools. Through the software's vivid interactive displays, the software will assist teachers in the following areas:

- Enhance educational effectiveness and efficiency
- Perfect revision tool for students
- Help teachers explain complex topics
- Easy to comprehend and easy to teach
- Higher retention and improved grades

Plainfield High School, Barack Obama Academy, PAAAS, Hubbard, Maxson, Clinton, Cedarbrook and Cook teachers and students will benefit from STAM's extensive library, consisting of topics in biology, chemistry and physics, including interactive simulations under these topics.

RESOLVED, that the Plainfield Board of Education approves the installation of STAM Interactive software for use in Plainfield High School, Barack Obama Academy, PAAAS, Hubbard, Maxson, Clinton, Cedarbrook and Cook at a total cost of \$6,100.00 inclusive of shipping and handling fees. The availability of funds for this time has been verified and will be charged to account 11-000-221000-26-0000 (Supplies and Materials).

E. Model Curriculum

Strategic Plan Link

Goal 1: Learning Outcomes:

To improve the learning and academic performance of all students in all Plainfield Public Schools

Goal 2: Human Resources:

To improve the recruitment, retention and development of district staff.

The Superintendent of Schools recommends, and I so move, adoption of the following:

RESOLUTION

The Plainfield Board of Education recommends the adoption of the Model Curriculum in the areas of Language Arts/ Literacy and Mathematics developed by the New Jersey Department of Education. This curriculum will support the new Common Core Standards. It provides comprehensive and cohesive curricula. It will provide our teaching staff with tools to close the gaps in student achievement.

Model Curriculum provides a new format and approach to support student achievement in the following manner:

1. Curriculum incorporates all standards of the grade level and organized them into five units of study;
2. Units target Student Learning Objectives in a six week instructional format with a built-in assessment;
3. The units are sequential to target skills on grade level closing any gaps for student achievement; and
4. The assessments help support the measuring of the student's skills and provides targets in the daily planning of lessons.

RESOLVED, that the Plainfield Board of Education approves adoption of the Model Curriculum to provide Model Curriculum to support our goal of student achievement, and increase all students' proficiency levels.

XI. REPORT OF THE FINANCE COMMITTEE

DISCUSSION: Hub Stine Field

A. Reports of the Board Secretary and Treasurer – June 2012

Strategic Plan Link:

Goal 3: Business Operations

To improve the overall efficiency and effectiveness of business operations.

The Superintendent of Schools recommends, and I so move, adoption of the following:

RESOLUTION

The Board Secretary has certified that, as of the date of the report, no budgetary line item account has obligations and payments (contractual orders) which in total exceed the amount appropriated by the District Board of Education.

The Treasurer of School Monies is required by statute to submit a report to the Board of Education on the cash balance in the various Board of Education Bank accounts.

The Board Secretary's Report and the Report of the Treasurer of School Monies for the stated period were in agreement.
