Goal 5: Community and Family Engagement:

To actively engage families and communities in a meaningful, structured, and productive manner that promotes learning and cooperation.

The Superintendent of Schools recommends, and I so move, adoption of the following:

RESOLUTION

The Plainfield Board of Education is committed to ensuring the wellness of all of its students, and recognizes that highly qualified, competent, skilled and dedicated workforce is essential in the success of the District, schools and students. Therefore, it has provided the Superintendent of Schools the authority to employ consultants to address the needs of teachers and students in order to promote school improvement.

Research reveals that poor and minority children may be at risk for dental cavities and dental diseases because they do not receive the necessary dental care. Children living below the federal poverty level and minority children suffered significantly more cavities in their primary teeth and have more untreated cavities, than those children above the poverty level.

Lack of dental care is associated with dental pain, missed days from school and poor academic performance. Further investigation shows that expanding access to dental care will not only improve oral health care for poor and minority children, but also enhance their academic performance.

Dr. Catherine Young, a Plainfield dentist has agreed to provide dental screenings and treatments through grant funding. The dental program will be implemented for students in grades K-12 since low health literacy may provide a barrier to low-income families receiving and acting on important dental information.

Costs include screenings at \$5.00 per student (\$36,795.00) and treatments as needed. The treatments range from silver fillings, sealants, cleanings, and x-rays; \$5,000.00 has been designated for these services. In keeping with the regularly scheduled ten-month school year, the program will commence in September 2012 and end during June 2013.

One of the goals of Healthy People 2020 is to increase the number of low-income children receiving dental care. This grant would make it possible to offer a program of dental screenings/treatments to Plainfield Public Schools students. The ultimate goal of the grant is to foster better dental hygiene and to reduce absences due to dental diseases.

RESOLVED, that the Plainfield Board of Education grants permission for submission of the Delta Dental Grant to assist with dental screenings and treatments for the Plainfield Public School students.

This new regulation requires all New Jersey high schools to adopt "Option II" policies and procedures that permit a student or group of students to meet or exceed the core standards in any subject area through alternative activities.
