The Plainfield Board of Education is committed to ensuring that all students succeed academically and reach full potential in life. In so doing it is committed to providing opportunities for ensuring that all students (inclusive of English Language Learners and Special Education students), meet the New Jersey Core Curriculum Content Standards and achieve academic and life-long success.

Children's Specialized Hospital, an affiliate member of the Robert Wood Johnson Health System, provides evaluation and treatment for common childhood developmental concerns such as learning, language or hearing problems, developmental delays and behavior or attention problems.

In order to provide appropriate services for H.P., a student who has been identified as having difficulty with language-based instructions, a comprehensive diagnostic hearing test is recommended and deemed necessary, as per the result of a planning meeting which was held for H.P. Recommended services as a result of this evaluation will likely be provided for the student for the 2009 - 2010 school year. The Individuals with Disabilities Act ensures the provision of Special Education and or Related Services.

**Audiological Comprehensive Testing:**

Central Auditory Processing (CAP) Evaluation = \$987.75 per evaluation

**RESOLVED**, that the Plainfield Board of Education approves Children's Specialized Hospital to provide Audiology Comprehensive Testing (1 X Expenditure Service) for one student during the 2008 – 2009 school year. The availability of funds for this item has been verified and will be charged to account 11-000-216000-800A-32-0000.

**Strategic Plan Link:**  
**Goal 3: Business Practices**

**To improve the overall efficiency and effectiveness of business operations.**

The Superintendent of Schools recommends, and I so move, adoption of the following:

**RESOLUTIONS**

**(1.) Plainfield High School**

The school district's special education task force has recently completed its evaluation of district procedures and placements and has developed a plan to educate additional students in district as opposed to sending them out of district to private facilities.

A component of this plan requires the provision of additional classroom space to allow for the growth of in-district programs. Space for these classrooms has been identified by converting the former wood working shop in the 1917 PHS building into two self contained special education classrooms.

**RESOLVED**, that the Plainfield Board of Education approves the conversion of the former wood working shop into two classrooms and further approves administration to submit an "Application for Change of Use of Educational Space for the 2009-2010 School Year" to the NJDOE for approval.

**(2.) Cook School**

Cook School has previously had its grade configuration changed from a Prek – 6 school to a Prek – 8 school which has resulted in a large increase in enrollment. In order to meet this growth in enrollment, there is a need to create additional classroom space by relocating the current media center to the current art classroom.

Future space concerns should be addressed by the renovation/addition to the school which is expected to commence in late 2010.
