The intervention will track our school's HIB climate using student surveys that are administered to all students three times throughout the 2012-2013 school year. Small groups of student leaders will be selected to participate in a training program to discourage HIB behavior in school, online and with friends. Teachers will also be surveyed.

All information collected in the Roots Program will be confidential. Student information will not be reported back to the school on an individual level and all names will be replaced with random identification numbers.

Finally, results of the data collection and analysis will be provided to PAAAS in a clear and accessible format. Program Directors and Managers from the Roots Program will discuss how to incorporate the results into ongoing anti-bullying efforts within our school.
