The results of the recent district food service survey were also discussed.

The Board Members had a number of questions about the food program especially as related to the food survey.

Maria Pellum indicated that at Evergreen School she has never seen a food survey. She does feel that we should begin offering Latino food selections.

Mr. Dunn also had a number of concerns about the Sodexo contract. He mentioned Sodexo should also look at the changing demographics in Plainfield.

Mrs. Hernandez and Mrs. Edwards as community relations board members will set up a meeting with Sodexo to discuss food service operations.

VII. PRIVILEGE OF THE FLOOR

A Woodland school parent is very concerned about the possible change of principals at that school.

Janet Boyd, Librarian at Cedarbrook School, addressed the Board about planned reductions of librarians.

Linda Anderson also spoke about the need to maintain full-time librarians in the district.

Cheryl Nagel-Smiley serves on the South Plainfield library board and it is imperative that we maintain school librarians as funds have been cut for public libraries.

Linda Reed believes librarians are a valuable commodity. She was also a little taken back by some of the comments in the food survey.

Leona Bellazin had a number of concerns about jobs that were previously given without job postings. She also asked the Board to look closely at the job description for the Behaviorist.

Katherine Cardona thanked the Board and Anna Belin-Pyles for their efforts in addressing possible staffing reductions.

John Campbell suggested that everyone be given five (5) minutes at the privilege of the floor. He also thinks that it is rude for the Board to go into executive session when the public is waiting. There also was not adequate time to review the proposed budget.

Mrs. Gilbert agreed with Mr. Campbell about the executive session. The Board has been very concerned about budget challenges and staff reductions.

Plainfield Public Schools will provide available remedial and enrichment opportunities to students in grades 1-12. These opportunities will be provided to students in the required courses of Literacy, Mathematics, Social Studies, Science, Physical Education and/or elective courses.

Direct teacher instruction and/or technology-based interventions will comprise the delivery model for these areas. Additionally, English Language Learners and Special Education students in selected grades will be provided an opportunity to extend their learning as reflected in the appropriate curriculum for ELL student or IEP for Special Education students.

Pursuant to N.J.A.C. 6A:32-10.2, the operation of a summer session requires annual approval by the Executive County Superintendent no later than May 30, 2010. Documentation required for submission has been prepared and submitted for approval in accordance with established guidelines.

Q. Submission of Application - High Schools That Work/CTE Partnership

The Interim Superintendent of Schools recommends, and I so move, adoption of the following:

RESOLUTION

Strategic Plan Link:

Goal 1: Learning Outcomes:

To improve the learning and academic performance of all students in all PPS.

The Plainfield Board of Education is committed to ensuring that all students succeed academically and reach their full potential as productive citizens. The NJ DOE grant application, will be submitted to continue Plainfield High Schools participation in the High Schools That Work two day Designing Course Syllabi for Career/Technical Courses to provide needed support. This grant would provide funding for members of the HSTW Team to participate in a two day institute on August 3rd and August 4th. The team attending the institute must consist of at least six members that have participated in the professional development workshops that took place during the 2009-2010 school year.

This project supports the work of the New Jersey Department of Education and its partnership with HSTW and the Southern Regional Education Board (SREB). The two day institute will provide opportunities for each high school to create optional programs of study that require students to complete a solid academic core with a career focus.

The grant may only be spent on expenses related to the district's participation in the HSTW/CTE Summer Institute funding the stipend as stipulated in the teacher's daily contract and reasonable and appropriate travel expenses for a maximum of \$2,000.

RESOLVED, that the Plainfield Board of Education authorizes the Interim Superintendent of Schools to submit the following grant application for funds to support learning outcomes and increase grant revenue in the district.

Funding Source	Program Description	Administrators Responsible	Amount
New Jersey Department of Education, Office of Career and Technical Education	This is project supports the work of the New Jersey Department of Education Career and Technical Department and its partnership with HSTW and the Southern Regional Education Board (SREB). The two day institute will provide opportunities for each high school to create optional programs of study that require students to complete a solid academic core with a career focus. The sessions will provide opportunities to enhance the HSTW framework, focusing on developing career pathways that enhance the quality of career and technical education (CTE) within the high school. This aligns with the district goal to address student engagement in the classroom, decrease dropout rates and decrease the need for remediation in college.
