UNIT DESCRIPTION

Students use the target language in the three modes of communication to explore physical characteristics and personality qualities and examine what they share in common with members of the target culture. They understand that their experiences help shape their personal identity. (Assessment of the interpretive mode may be in English; however, the text is always in the target language.)

Interpretive:

They interpret authentic written and/or video/audio texts such as blogs, online biographies, social network sites, stories, and short clips from movies and television that focus on first introductions and personal information.

Interpersonal:

They engage in short unrehearsed/unscripted conversations with classmates, the teacher, and members of the target language community, in which they ask and answer questions related to self.

Presentational:

They use lists, chunks of language, and memorized phrases to introduce themselves and describe themselves or others while using culturally appropriate gestures and intonations.
