# Energy and Matter

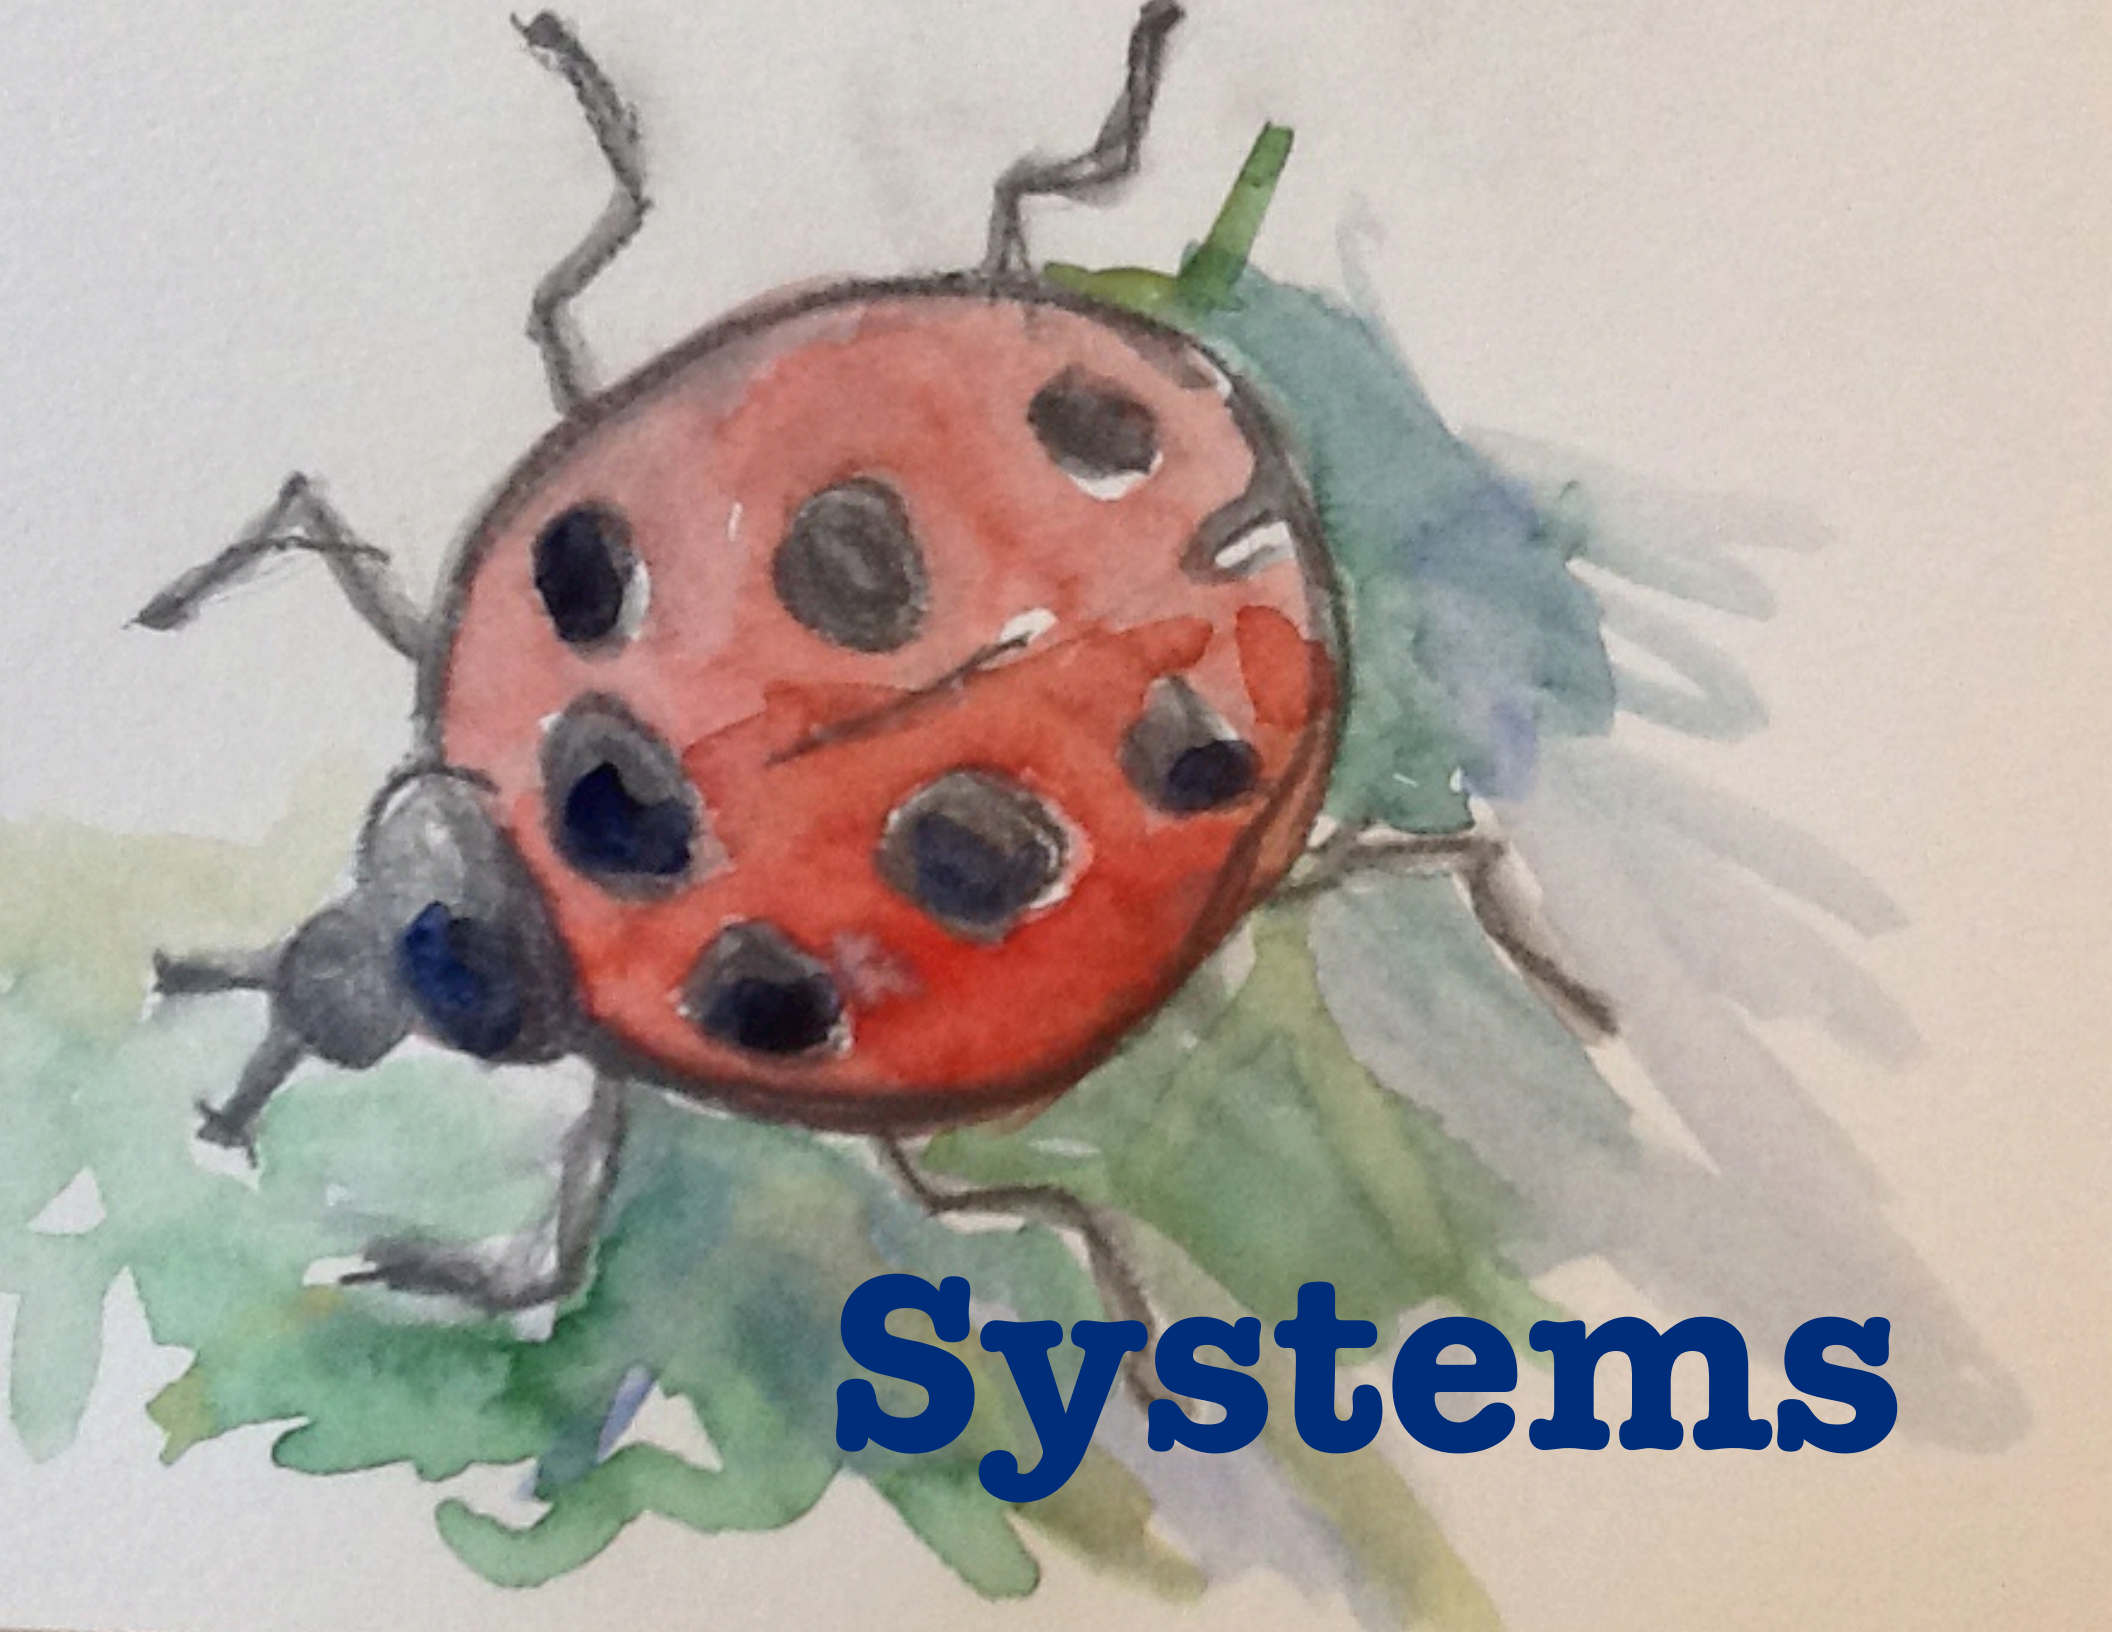

A watercolor illustration of a colorful, tilted boat. The boat's hull is composed of several horizontal bands of color: red at the bottom, green, yellow, and orange. A dark grey or black line represents the deck. A blue mast is attached to the boat, extending upwards and slightly to the left. Behind the mast, there are several light-colored, radiating brushstrokes in shades of yellow and green, suggesting a sun or a bright light source. The entire scene is set against a light, textured background.
